TECHNICAL BUSINESS ANALYST / PROJECT MANAGER

SUMMARY: I'm a 9 years experienced technical business analyst / project manager specializing in the deployment of data oriented private banking asset solutions such as eBanking, mobile banking, CRM or onboarding tools. As a technical business analyst / project manager, I use my business and technical knowledge to build business oriented solutions using SQL, PL/SQL, Python language or ETL solutions such as Informatica Power Center. In parallel, I work as a fullstack freelance web developer, developing web applications for private clients.

Employment
